План читання Біблії в учнівстві

Перед вами один з багатьох планів, завдяки яким можна досягнути цілі прочитати всю Біблію за рік. Цей план передбачає деякі особливості, які зможуть бути корисними у вашій подорожі Біблією.

- Щодня читаючи чотири різних уривка Писання, ви зможете краще зрозуміти цілісність Біблії, а також будете мати можливість ознайомитися з чотирма різними поглядами.
- Починати можна в будь-який момент протягом року. Просто починайте читати, а закінчивши читання, поставте позначку.
- Для запобігання відставань, які нерідко трапляються у більшості людей при читанні Біблії за планом, у кожному місяці передбачено тільки 25 позицій для читання. Маючи кілька «вільних днів» кожен місяць, ви можете відвести неділі на те, щоб взагалі не читати за планом або щоб надолужити відставання за попередній тиждень.

Приємної вам подорожі!
